

Dear patients & friends,

Over the past four years, it has been an honor to serve alongside the Third Coast Family Dental team to provide quality care for the West Allis community. It is bittersweet to announce that this chapter of my life is coming to a close as I leave Milwaukee. My husband Mark accepted a position as a school administrator in Panama and we are excited to explore a new part of the world while living in Central America. I am filled with gratitude and excitement to see what Third Coast Family Dental has in store for the future.

**It is with great pleasure that I introduce the new dentist duo at Third Coast Family Dental!**

Drs. Jake Jacomet and Andrea Emmerich will be taking over the practice and with their extensive knowledge, attention to detail, and personable approach, I trust that our patient family is in good hands. Your new dentists are natives of Milwaukee and they're excited to provide compassionate care in their hometown. You can expect the same exemplary level of service from Dr. Jake and Dr. Andrea, and you'll still see the familiar faces of the rest of the team when you visit the office.

**Meet Dr. Andrea**

After graduating from Marquette University School of Dentistry, Dr. Andrea practiced for four years in South Carolina. She feels honored to be back at home practicing dentistry near her family, and she strives to make the entire dental experience comfortable for every patient. She prides herself on staying current with the ever-changing landscape of dentistry. This month, she will graduate from the Dawson Academy's Core Curriculum to become a Dawson Scholar. Dr. Andrea is a member of the American Dental Association and American Dental Political Action Committee. Outside of the office, she enjoys spending time on the lake wake surfing, cheering on all of Wisconsin's sports teams, and going to country music concerts!

**Meet Dr. Jake**

Dr. Jake graduated from the Marquette School of Dentistry in 2015. Since graduating, he has devoted himself to taking comprehensive courses in order to provide the highest level of complete dental care to his patients. He is a Fellow of the International Congress of Oral Implantologists (FICOI), which requires over 100 hours of post-graduate implant training. Jake has also completed the Dawson Academy Mini-Residency where he gained extensive training for solving the most complex dental problems. With his long list of experience, accolades, and accomplishments, you're in good hands with Dr. Jake no matter what your dental issues may be.

**We are pleased to announce that this transition will take effect as of May 8th, 2020.**

In light of current events, we are doing our part to keep our patients and our community safe. We are looking to the American Dental Association, the Centers for Disease Control, and the World Health Organization to stay well-informed about this evolving situation and are adhering to their recommendations. You'll be in good hands with Dr. Jake, Dr. Andrea, and the team you know and love. We are determined to make this a smooth transition, so please reach out with any questions.

Sincerely,  
Dr. Sarah Blair

**Your Friendly Neighborhood Dentist**
